Amendments Adopted

This bill does the following.

1. It clarifies that cost-of-living adjustments for benefit recipients from the Governor's Retirement Fund are the same as those paid to benefit recipients from the State Employee and Teacher Retirement Program.
2. It clarifies the authority and responsibilities of the Board of Trustees of the Maine Public Employees Retirement System with respect to eligibility and membership issues that arise in the context of the Participating Local District Retirement Program. In *Kennebec County v. Maine Public Employees Retirement System*, 2014 ME 26 (February 20, 2014), the Law Court held that the retirement system did not have the statutory authority to make final administrative decisions with respect to enrollment election matters, when the local employer's employees were not members of the Maine Public Employees Retirement System. This bill provides explicit statutory authority for the retirement system and the board to continue to make such determinations, as they had prior to the court's decision. Consistent adherence to federal law is required to ensure that the retirement plan of the Maine Public Employees Retirement System remains a qualified governmental retirement plan entitled to favorable tax treatment under the United States Internal Revenue Code of 1986, as amended.
3. It codifies language enacted in Public Law 2007, chapter 240, Part U, section 8 to make clear that administrative costs and expenses attributable to the administrative operating budget of the Maine Public Employees Retirement System are charged against the assets of applicable funds.
4. It repeals obsolete language pertaining to information included in the retirement system's annual report to the Legislature.
5. Removes the requirement that the Legislature approve collective bargaining agreements between the retirement system and its employees.
6. It amends and repeals existing laws to reflect that the retirement system no longer administers a distinct expense fund, since all administrative expenses are paid out of applicable fund assets.
7. It makes the manner in which the member contribution rate is established for specific members of the Participating Local District Retirement Program consistent with how member contribution rates are established for all other members of the program.
