Senator Daughtry reported that the State House Facilities Committee met earlier today, August 7<sup>th</sup>, to consider the following items:

1. Update on Cross Office Building Security Screening; Proposal for State House Security Screening Area. Elaine Clark, Deputy Commissioner of the Department of Administrative and Financial Services, and Tyler Barter from Oak Point Associates, the architect/contractor for the Cross Security Screening Project, presented an update to the committee on the Cross Security Screening project. Part of this plan includes establishing a security screening area at the West entrance of the State House in the space where the former State House Café is located. At the conclusion of the presentation, the committee voted unanimously to recommend to the Legislative Council approval of using the space to establish a State House Security Screening area. This recommendation is included under new business later in today's agenda.
2. Proposal for Wabanaki Veterans Memorial in Capitol Park. Sarah Sherman, the Director of Strategic Partnerships from the Bureau of Veterans Services, presented on behalf of the Wabanaki Veterans Memorial Committee, a proposal to create a Wabanaki Veterans Memorial to be located in Capitol Park. The committee asked Director Gresser to research additional information and reach out to the Maine Historic Preservation Commission. The committee also expressed their intent to view the space in Capitol Park that is proposed to be the site of the memorial. The chair announced her intent to take up the issue again, with the benefit of the additional information, at a future meeting.

## **NEW BUSINESS**

### **Item #1: Proposal for State House Security Screening area**

President Jackson invited Elaine Clark, Deputy Commissioner of the Department of Administrative and Financial Services, and Tyler Barter from Oak Point Associates, the architect/contractor for the Cross Security Screening Project, to provide to the full Legislative Council a presentation similar to the presentation earlier provided to the State House Facilities Committee.

Deputy Commissioner Clark explained that, in 2021, a security study of the Cross State Office Building was conducted at the request of the Department of Administrative and Financial Services, and noted that at that same time the Legislature had expressed interest in hardening security in the Cross Building. Following the conclusion of the security study, Oak Point Associates was selected through a competitive process as the project's architect, and in 2023, the Legislature authorized the issuance of Maine Governmental Facilities bonds to be used for capital repairs and improvements to state-owned facilities, of which \$7 million has been allocated for the Cross State Office Building Security Project. Bonds for the project were issued in February of 2024, and the project is underway. In order to ensure seamless flow between the Cross Building and the State House, and to avoid the necessity of individuals moving between the two buildings requiring security screening more than once, Deputy Commissioner Clark explained that the architects had developed a proposal for which DAFS is seeking Legislative Council approval. Under this proposal, the State House Café space would be repurposed as a State House Security screening area, and the entrance and exit lanes into and out of the State House would be modified. Tyler Barter presented a visual presentation of the plans for both the Cross Office Building Security Screening Center and the potential State House Security Screening Center. Members of the Council asked questions and received information regarding the proposed plans.

**Motion:** That, upon the unanimous recommendation of the State House Facilities Committee, the Legislative Council approve the establishment of a State House Security Area in the space formerly used as the State House Café. Motion by

Representative Terry. Second by Senator Vitelli. **Motion passed unanimously (9-0-0-1, with Senator Stewart recorded as absent).**

### **Item #2: Funding of annual dues for the National Conference of State Legislatures (NCSL) and the Council of State Governments (CSG) for State fiscal years 2024 and 2025**

Director Gresser drew the members’ attention to the materials in their packets regarding the annual dues for NCSL and CSG, and reminded the members that, at their meeting on December 21, 2023, the Council had requested that she identify specific funds that might be used to pay the amounts of the annual NCSL and CSG dues in excess of the amounts budgeted for that purpose. Director Gresser reported that there are balances in the amount of \$95,853 remaining from funds provided for the

Apportionment Commission in the 130<sup>th</sup> Legislature, and that the remaining amount of \$68,317 is available from balances in the Citizen Trade Policy Commission account.

**Motion:** That the Legislative Council authorizes the transfer of \$74,419 from unspent balances in legislative accounts to allow dues requested by the Council of State Governments and by the National Conference of State Legislatures for fiscal year 2024 to be paid in full. The members asked Director Gresser to develop a draft memorandum for the Council's review at the next meeting.
